

# Discover the Assurance Difference

## Client Testimonials

“

With the Respiratory panel through Assurance, we get exact information, within about 24 hours, and can make sure that the treatment we started is appropriate, rather than guessing. Much better care, and helps us avoid the overuse of antibiotics.

**SARAH A. COVINGTON, CRNP, FNP-C**  
Tallassee, AL

Parents are more on-board with the ‘watchful waiting’ approach knowing we will identify the exact pathogen within 24 hours, and their child will be treated for the exact pathogen they have. This gives them reassurance and prevents the over-utilization of antibiotics.

**HEATHER NOLES, CRNP**  
Scottsboro, AL

”

“

We currently use Assurance Lab testing for multiple sites in our organization. It has proved to be a great tool. I personally appreciate the reporting time of results. We value the added proficiency this test brings to our office.

**DEBORAH SMITH, M.D.**  
Gadsden, AL

Assurance Labs has an excellent panel for all the specimens I have had experience with. Their promise to get results within one day has been kept. Patients always seem to be both impressed and reassured by the results.

**ALLEN H. BUTLER, M.D.**  
Huntsville, AL

“

Using Assurance Labs provides us with the results with the shortest wait time. This makes our patients very happy and satisfied that their concerns are addressed quickly. For us, reliable, detailed, and timely results enhance the care we provide.

**CAROLE CAMPBELL, M.D.**  
Gadsden, AL

We couldn't do what we do without our rep and the great people at Assurance Scientific Labs. They are a part of our team and work with us to help meet the needs of the community without hesitation!

**RANDI WADSWORTH, RN & CLINIC MANAGER**  
Trussville, AL

”

“

I like how the Assurance test is very detailed with its panels. The results are easy to read and very detailed and give me everything I need on the first page. Turn around time is awesome! Love how it breaks down the resistance markers.

**JANUARY BLALOCK, CRNP**  
Rainsville, AL

It [PCR Testing] also helps me identify trends in the bugs that are 'going around,' helping me better diagnose and treat my patients. I cannot find anything negative about identifying the exact pathogen and ensuring the patient is on the proper treatment sooner.

**HEATHER NOLES, CRNP**  
Scottsboro, AL

”

“

Assurance has fast and reliable results that are available the next day.

**DANA NORRIS, CRNP**  
Fayette, AL

I've had a great experience with Assurance. We get results quickly, and they offer great customer service. The portal is so easy to use and work with. We get accurate, fast, reliable results, helping our staff and our patients.
