## 3 MEDICAL NECESSITY

As part of my antibiotic stewardship policy, I find it medically necessary to rapidly determine and differentiate a viral and/or bacterial infection in order to treat with or without appropriate antibiotics. Having the most accurate and timely data available to me directly guides my treatment and patient management. Empiric treatment and management leads to inappropriate and unnecessary antibiotic use (50% according to the CDC) and delayed diagnosis which can lead to severe consequences.

## 4 CONSENT FOR TESTING

The information I have provided on this form is accurate. I authorize Assurance Scientific Laboratories to release the results of this test to my treating physician or facility. I hereby authorize my insurance or other payment to Assurance Scientific Laboratories for services I receive. I am aware that Assurance Scientific Laboratories may be an out of network provider with my insurer. I am aware that I am responsible for all co-pays and deductibles not covered by insurance or other payers.

## 5 PANEL LIST: Please check appropriate panels that address your patient's needs. Tests can be ordered individually.
