

CLINIC INFORMATION

Name: Assurance Pathology Laboratory
 Address: 2868 Acton Road Suite 207 BIRMINGHAM, AL 35243
 Provider: Test, Doctor MD

PATIENT INFORMATION

Name: Test, Copia
 DOB: 10/28/2000 Sex: M
 Phone: (999)999-9999
 Address: 123 Test St BIRMINGHAM, AL 35243

SPECIMEN INFORMATION

Lab Accession Number: ASL-09152110506
 Date Collected: 09/14/21 2:00:00 PM
 Date Accessioned: 09/15/2021
 Date Reported: 09/15/2021
 Faxed to: 8553194459

Controls

Patient Extraction Control ¹	PASS
Endogenous Positive Control ¹	PASS
Pathogen Positive Control ²	PASS
Pathogen Negative Control ³	PASS

(1) Endogenous control confirms sample collection, DNA/RNA extraction, and assay enzyme activity
 (2) Positive control is synthetic inactive pathogen
 (3) Negative Control contains primers, probe, and enzymes with no DNA/RNA template
 (4) A "Detected" result indicates the presence of a pathogen (99.99% confidence) above the assay cutoff.

Test Performed	Lab Result (4) (Qualitative Low/Medium/High)	DNA Copy Number	Comments
SUMMARY Wound/Dermatology Panel		Collection Type: Swab, Wound	
Citrobacter koseri	DETECTED - LOW	1.00E+02	
Morganella morganii	DETECTED - HIGH	1.00E+04	

Class (Gene Name)	Lab Result (Qualitative)	Resistance Gene Targets Identified	Associated Resistances (Antibiotics to Avoid)
SUMMARY Wound Antibiotic Resistance Markers		Collection Type: Swab, Wound	
Class A Beta-lactamase (CTX-M-Group 1)	DETECTED	blaCTX-M-1,3,10,12,15,22,23,28; blaFEC-1	[09/15/21 8:57:15 AM] Cephalosporins, Penicillins, Aztreonam

Clinic Name: Assurance Pathology Laboratory

Patient name: Test, Copia

Lab Director: Ty Thomas, MD

Test Performed	Lab Result (4) (Qualitative Low/Medium/High)	DNA Copy Number	Comments
Wound/Dermatology Panel		Collection Type: Swab, Wound	
Acinetobacter baumannii	Not Detected	Not Detected	
Bacteroides fragilis	Not Detected	Not Detected	
Citrobacter freundii/braakii	Not Detected	Not Detected	
Citrobacter koseri	DETECTED - LOW	1.00E+02	
Enterobacter cloacae	Not Detected	Not Detected	
Enterococcus spp.	Not Detected	Not Detected	
Escherichia coli	Not Detected	Not Detected	[09/15/21 8:57:16 AM] Shares homology with Shigella spp.
Klebsiella aerogenes	Not Detected	Not Detected	
Klebsiella oxytoca/michiganensis	Not Detected	Not Detected	
Klebsiella pneumoniae	Not Detected	Not Detected	
Morganella morganii	DETECTED - HIGH	1.00E+04	
Proteus mirabilis	Not Detected	Not Detected	
Pseudomonas aeruginosa	Not Detected	Not Detected	
Staphylococcus aureus	Not Detected	Not Detected	
Staphylococcus epidermidis	Not Detected	Not Detected	
Staphylococcus saprophyticus	Not Detected	Not Detected	
Streptococcus pyogenes (Group A)	Not Detected	Not Detected	
Varicella Zoster virus	Not Detected	Not Detected	

Clinic Name: Assurance Pathology Laboratory

Patient name: Test, Copia

Lab Director: Ty Thomas, MD

Page: 2

Test results must be evaluated with clinical symptoms to diagnose disease. All tests established and validated by Laboratory and not FDA approved unless otherwise indicated.
 Methodology statement: Real-time PCR assays are designed to detect pathogens with clinical significance and analytical sensitivity and specificity greater than 99%.
 Limitations: While these assays are very sensitive and specific, theoretically these assays could detect pathogens not listed, resulting in a false positive.
 In addition, while these assays are very specific, there may be target pathogen sequences with unknown sequence variability which may not be detected, resulting in a false negative result.

Class (Gene Name)	Lab Result (Qualitative)	Resistance Gene Targets Identified	Associated Resistances (Antibiotics to Avoid)
Wound Antibiotic Resistance Markers		Collection Type: Swab, Wound	
Class A Beta-lactamase (blaKPC)	Not Detected	KPC-2-8,10,11,13-22,24-33	[09/15/21 8:57:15 AM] Carbapenems, Cephalosporins, Penicillins, Beta-lactamase inhibitors, Aztreonam
Class A Beta-lactamase (CTX-M-Group 1)	DETECTED	blaCTX-M-1,3,10,12,15,22,23,28; blaFEC-1	[09/15/21 8:57:15 AM] Cephalosporins, Penicillins, Aztreonam
Class B metallo Beta-lactamase (blaNDM)	Not Detected	NDM (1-21)	[09/15/21 8:57:15 AM] Carbapenems, Cephalosporins, Penicillins, Beta-lactamase inhibitors
Fluoroquinolones	Not Detected	qnrS 1-5,7-9; qnrB Group 1; qnrB Group 5	[09/15/21 8:57:15 AM] Ciprofloxacin, Gemifloxacin, Levofloxacin, Moxifloxacin, Norfloxacin, Ofloxacin
mecA (Methicillin/Oxacillin resistance)	Not Detected	mecA	[09/15/21 8:57:15 AM] Oxacillin
Sulfonamides	Not Detected	sul1; sul2; sul3	[09/15/21 8:57:15 AM] Sulfadiazine, Sulfamethizole, Sulfamethoxazole, Sulfasalazine, Sulfisoxazole
Trimethoprim	Not Detected	dfrA1; dfrA5; dfrA11; dfrA17	[09/15/21 8:57:15 AM] Primsol
vanA (Vancomycin)	Not Detected	vanA	[09/15/21 8:57:15 AM] Vancomycin
vanB (Vancomycin)	Not Detected	vanB	[09/15/21 8:57:15 AM] Vancomycin
